there are some words that she'll say perfectly the first time (ex: green) and then the more she says it, the more it gets poorly articulated (ex: green becomes gweweweween)

we all have right to self expression

the reflux was horrendous, as was the burning throughout my digestive system

and most european countries.

even if you have a prescription, don’t drink and take adderall.

it’s an unpaid, but powerful position

supporters by framing or presenting their issues in a way that aligns with commonly held values, beliefs,
