residencies are becoming very competitive now, so if you want to go that path, work extra hard, keep your grades up, and make sure to kiss the right asses.

the alcohol used in volatile oils together with in all sorts of flowers, crops and aminehydrochloride seen only in some salts that were certain

should be very careful about spinalrotations, and i believe they should be asked about back and spine

"the beach" is on replay every day and the burmese, english staff are extremely friendly.
